ALEX CHEN

Software Engineer & AI Solutions Architect

Kuala Lumpur, Malaysia | alex@gmail.com | +60 12-345 6789
LinkedIn: https://www.linkedin.com/in/asdrfdgreb | GitHub: https://github.com/asdrfdgreb

PROFESSIONAL SUMMARY

Innovative and analytical Software Engineer specializing in full-stack web applications, real-time cloud data systems, and machine learning integrations. Demonstrated capability in building scalable, production-grade applications with TypeScript, React, and Python.

SKILLS & COMPETENCIES

Programming & Frameworks:	React, TypeScript, JavaScript, Python, Node.js, Express, Tailwind CSS, SQL
Cloud & Databases:	Firebase, Firestore, PostgreSQL, SQLite, RESTful APIs, Git, Docker
Core Competencies:	Problem Solving, System Architecture, UI/UX Engineering, Agile Collaboration

PROFESSIONAL EXPERIENCE

Software Engineer
TransitAI Labs | Jan 2023 - Present

- Designed and deployed responsive web modules and real-time Firestore database synchronization.
- Engineered 3D WebGL interactive transit card visualizer boosting user engagement metrics by 42%.
- Optimized client-side bundle size and caching strategies, reducing initial application load by 1.8s.

Frontend Developer Intern
Lexara Global | May 2021 - Dec 2022

- Constructed accessible UI components in React and TypeScript following modular design patterns.
- Integrated REST endpoints with client state management, cutting UI error state incidents by 28%.
- Collaborated closely with design and product teams to translate Figma prototypes into clean code.

KEY PROJECTS

JobTransit Career Route Engine | TypeScript, React, Firestore, Three.js

- Interactive 3D career travel pass generator with real-time multi-platform CV text parsing.

Autonomous Skill Taxonomy Classifier | Python, FastAPI, Tesseract OCR

- Extracts and categorizes technical proficiencies across industry domains with 95% accuracy.

EDUCATION

Bachelor of Computer Science | Universiti Malaya — Graduated 2024

Dean's Honour List • Major: Software Engineering & Intelligent Systems
